DCS8	562470	Outside corner molding - not shown	¾" w x 96" h		
	915686	Slow close drawer glides set - not shown			

HOW TO DESIGN YOUR ROOM

STEP 1

MEASURE YOUR ROOM – Carefully measure your room dimensions. Start by measuring every wall, beginning in the top, left-hand corner. Measure from the corner of the wall to the outside edge of the molding. Be sure to indicate the location of windows, doors, plumbing fixtures, ventilation, electrical outlets, and appliances in your drawing.

STEP 2

USE THE PLANNING GRID TO LAY OUT YOUR CABINETS – Draw in your room layout. Start in the top, left corner and work out. Each square inch equals three inches. Consider convenience while developing your layout. It is often desirable to place the dishwasher next to the sink and the sink within a few steps of the refrigerator and stove.

STEP 3

FINALIZE YOUR CHOICES AND SUBMIT – Make a final list of all cabinets styles and quantities and your desired finish that are required to complete your project. Submit your completed layout to your authorized dealer.

SCALE: 1 SQUARE = 3"
